

MAXFORCE®

CARPENTER ANT BAIT GEL – 0.95 OZ (27g)

Material Safety Data Sheet

I Product: MAXFORCE® CARPENTER ANT BAIT GEL																	
Description: THICK TRANSLUCENT, YELLOWISH GEL, SWEET ODOR																	
Other Designations:	Manufacturer	Emergency Telephone Number															
EPA REG. NO.: 64248-21	Maxforce Insect Control Systems 1221 Broadway Oakland, CA 94612	Notify your Supervisor Rocky Mountain Poison Center 1-800-446-1014 For Transportation Emergencies Chemtrec 1-800-424-9300															
II Health Hazard Data		III Hazardous Ingredients															
<p>Maxforce® Carpenter Ant Bait Gel may be minimally irritating to the skin following prolonged direct contact. It is not acutely toxic upon oral or dermal exposure. Follow the precautions outlined below.</p> <p>Practical Treatment: If swallowed, drink two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. For skin or eye contact, rinse with copious amounts of water. Seek medical attention.</p> <p>No known health conditions are aggravated by exposure to this product.</p>		<table border="1"> <thead> <tr> <th>Ingredient</th> <th>Concentration</th> <th>Worker Exposure Limit</th> </tr> </thead> <tbody> <tr> <td>Fipronil</td> <td>0.001%</td> <td>^a0.1 mg/m³ ^b0.032 mg/m³</td> </tr> <tr> <td colspan="3">CAS Reg. No. 120068-37-3</td> </tr> <tr> <td colspan="3">None of the ingredients in this product is on the IARC, OSHA or NTP carcinogen lists.</td> </tr> <tr> <td colspan="3">Rhône-Poulenc TWA for: ^a3 month 'on', 9 month 'off' exposure ^b12 month daily exposure</td> </tr> </tbody> </table>	Ingredient	Concentration	Worker Exposure Limit	Fipronil	0.001%	^a 0.1 mg/m ³ ^b 0.032 mg/m ³	CAS Reg. No. 120068-37-3			None of the ingredients in this product is on the IARC, OSHA or NTP carcinogen lists.			Rhône-Poulenc TWA for: ^a 3 month 'on', 9 month 'off' exposure ^b 12 month daily exposure		
Ingredient	Concentration	Worker Exposure Limit															
Fipronil	0.001%	^a 0.1 mg/m ³ ^b 0.032 mg/m ³															
CAS Reg. No. 120068-37-3																	
None of the ingredients in this product is on the IARC, OSHA or NTP carcinogen lists.																	
Rhône-Poulenc TWA for: ^a 3 month 'on', 9 month 'off' exposure ^b 12 month daily exposure																	
IV Special Protection and Precautions		V Transportation and Regulatory Data															
<p>Hygienic Practices: Avoid contact with skin and clothing. Wash skin with soap and water if contact. Remove contaminated clothing and launder before re-wearing.</p> <p>Engineering Controls: Use general ventilation to minimize exposure.</p> <p>KEEP OUT OF THE REACH OF CHILDREN.</p>		<p>U.S. DOT Hazard Class: Not restricted</p> <p>U.S. DOT Proper Shipping Name: Insecticide, non-toxic, solid-not restricted</p> <p>EPA CERCLA/SARA TITLE III: This product contains no CERCLA/SARA Title III materials.</p>															
VI Spill or Leak Procedures		VII Reactivity Data															
<p>Non-hazardous waste.</p> <p>Place in a container for disposal.</p> <p>Dispose in accordance with Local, State, and Federal regulations.</p>		<p>Stable under normal use and storage conditions.</p> <p>Product will stain porous surfaces.</p>															
VIII Fire and Explosion Data		IX Physical Data															
<p>Not flammable or explosive.</p> <p>Flash Point: 200°F (TCC)</p> <p>Fire Extinguishing Media: Water, Foam, CO₂ or dry chemical.</p>		<p>Appearance: Thick translucent, yellowish gel, sweet odor</p> <p>pH: not applicable</p> <p>Specific gravity: 1.27 g/cc</p> <p>Melting Point: 60° C</p>															

InTiceTM

sweet ant gel

Kills Sweet Feeding Ants
Doesn't Drip - Stays Soft

Active Ingredient: Orthoboric Acid.....5%
Inert Ingredients.....95%
Total.....100%

EPA Reg. No. 73079-1 Net Contents: 5 x 1.5 oz (42 g) EPA Est. No. 73079-MN-1

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

- IF SWALLOWED:**
- Call a poison control center or doctor immediately for treatment advice.
 - Have a person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give anything by mouth to an unconscious person.

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call 800 858 7378.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. May cause eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly after handling.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Sweet-feeding ants are usually found in moist areas such as kitchens and bathrooms, and will often appear to be randomly searching for food. Baits will work best if competing food sources are cleaned up and placed in sealed containers. This product is designed for use on sweet feeding ants.

To locate ant trails: First locate foraging ants and place a drop of InTice Sweet Ant Gel in front of an ant. When the ant makes contact, elongate the drop to 1/2 inch. Normally within 10-20 minutes, the ants will recruit more workers, forming a trail that can be followed to locate where ants are coming into the structure. Check other areas of the structure to determine if there are others entry points, potentially indicating more than one nest.

Baiting: Bait ants close to their entry point(s) and along their trail(s). Long-term success will come from baiting each separate ant trail. To maximize feeding surface, apply bait in thin (1/8 inch wide) lines, one to two inches long. Use one to three lines per entry point or trail. After baiting, lightly blow on ants feeding at the pre-treat spot to disperse, and wipe up the bait with warm water. Replenish bait as needed. Clean up any remaining bait with warm water at the end of the baiting program. Results are enhanced if the same procedure is used to bait around the outside of the structure.

The non-drip formula of InTice Sweet Ant Gel makes it easy to bait out of the way on vertical and horizontal surfaces such as the edges and tops of cupboards, along window frames and in corners where the wall and floor or ceiling meet. Some water marking may occur on unfinished surfaces. In the edible product areas of food handling establishments, other areas where food is commercially prepared or processed, and in food service areas, only place bait in covered bait stations and record the number and location of bait stations. Avoid contamination of feed and foodstuffs.

STORAGE AND DISPOSAL

STORAGE: Store in a dry place inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Rinse thoroughly. Securely wrap in newspaper and discard in trash.

EPA Est. No. 73079-MN-1

Date: February 2002
Prepared By: CWS

Product Trade Name: InTice Sweet Ant Gel
Use: Bait for control of sweet-feeding ants
EPA Reg. No.: 73079-1

Composition: The product is composed of orthoboric acid and food-grade enhancers.

Common Name: ant bait gel with boric acid

SECTION I - HAZARDOUS INGREDIENTS

Orthoboric acid (boric acid) - 5.0%
CAS # 10043-35-3

SECTION II - PHYSICAL PROPERTIES

Form: Viscous gel
Color: translucent white with beige tint
Odor: slight sweet
Specific Gravity: 1.293 at 25 °C
Evaporation Rate: N/A

Solubility: practically insoluble with water
% Volatile by Volume (25 °C): ca. 0%
Vapor Pressure: N/A
Vapor Density: N/A
Water Reactivity: N/A

Viscosity: 15940 cP at 25 °C
(Cannon-Fenske)
pH: 4.7 at 1.0% in water, 23 °C

SECTION III - FIRE AND EXPLOSION HAZARD DATA

Flash Point (Test Method): N/A
Flammable Limit: N/A
Auto Ignition Temp.: N/A

Extinguishing Media: Any fire-fighting media as appropriate for surrounding materials.
Special Fire Fighting Procedures and Personnel Protection: Use appropriate fire-fighting procedures for surrounding materials. Keep fire-exposed containers cool with water spray. Wear positive pressure self-contained breathing apparatus approved by MSHA/NIOSH.

Unusual Fire and Explosion Hazards: The fire and explosion hazards are considered very minor. Boric acid itself is a flame-retardant.

SECTION IV - HEALTH HAZARD DATA

The product is considered practically non-toxic via the oral, dermal or inhalation routes and not considered dermally irritating or sensitizing. The product is not considered an eye irritant.

Primary Routes of Entry: ingestion, skin absorption

Signs and Symptoms of Over-Exposure: Consuming large quantities could cause gastro-intestinal symptoms.

Acute and/or Chronic Effects: Product is practically non-toxic if ingested, though deliberate ingestion of large quantities could cause digestive disturbance.

Emergency and First Aid Procedures:
If in Eyes: Flush with water for at least 15 minutes and contact a physician if any persistent irritation results.
If Swallowed: Non-toxic in normal quantities. If ingested in large quantities, give two glasses of water and contact a physician.
If on Skin: Wash with soap and water.
If Breathed: No known effects.

SECTION V - PERSONAL PROTECTION MEASURES

Respirator Type: Not required
Ventilation: Not required
Other Protective Measures: Not required

Eye Protection: Not required
Gloves (recommended): Rubber or plastic, as needed

SECTION VI - REACTIVITY DATA

Stability Under Normal Conditions: Stable
Hazardous Polymerization: Will not occur
Incompatibility (Materials to Avoid): None

Conditions to Avoid: None
Hazardous Decomposition Products: None

SECTION VII - SPILL OR LEAK PROCEDURES

Do not take in the event material is spilled or released.
all: Wipe up and dispose of in proper container. Clean the area with detergent and water.
pH: Show spilled product into proper disposal container. Clean the area with detergent and water.
Disposal Procedures: Wastes resulting from use may be disposed of on site or at an approved waste disposal facility. Dispose of wastes in accordance with all Federal, State and Local laws.

SECTION VIII - STORAGE AND HANDLING PRECAUTIONS

Storage Temperature: Room temperature.
Average Shelf Life: Two years in original container.
Special Sensitivity (Heat, Light, Moisture): Avoid prolonged exposure to excessive heat.
Special Precautions to be Taken in Handling and Storage: Store in original container away from excessive heat and out of reach of children, pets or wildlife.

SECTION IX - SHIPPING INFORMATION

DOT Shipping Name: None required
DOT Hazard Classification: Non-Hazardous
DOT Labels Required: None required
Freight Classification: LTL, Class 60
